

TECHNICAL DATA SHEET

FLANGE - MOUNTING BRACKET - p/n MBA-FB-A (G or S)

MATERIALS: 3/8" 304 OR 316 STAINLESS STEEL, HDG CARBON STEEL, ALUMINIUM

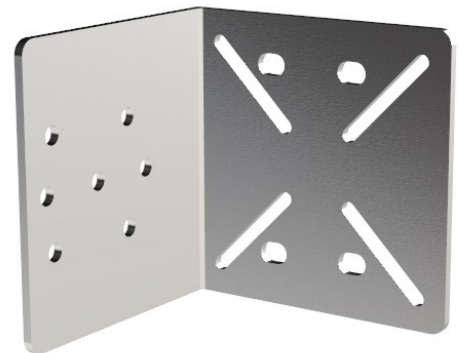

DESCRIPTION

MATERIAL: 5052 H32 ALUMINUM

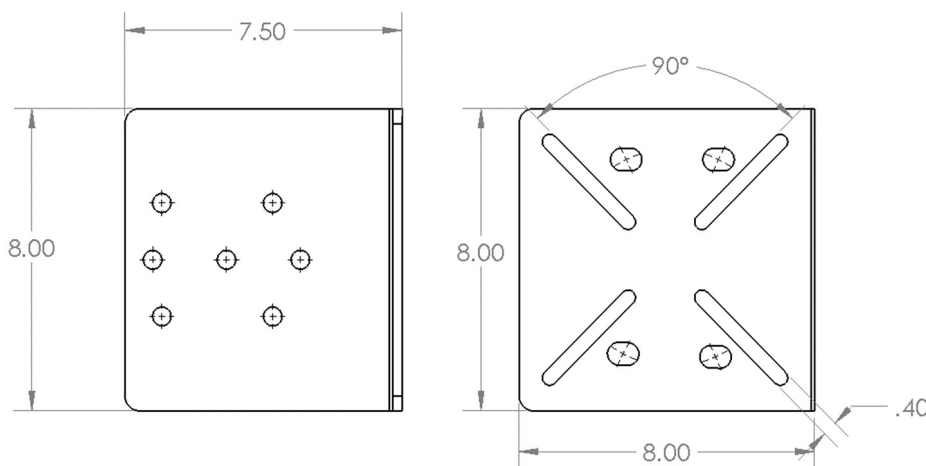

WEIGHT: 2 LBS

For mounting poles, strut and other products in parallel with the beam flange when utilizing the NO WELD Beam ANKR products.

Offset from the flange approximately 1.2". when installed vertically or horizontally on the Beam ANKR® product surface, the offset allows ease of cable or hardware fastener installation.
